

Lisa K. Swan

Director, DTRA Acquisitions, Contracts and Logistics Directorate

Lisa K. Swan, a member of the Senior Executive Service (SES), serves as the Director of Acquisition, Contracts, and Logistics (AL) and the component acquisition executive (CAE) for the Defense Threat Reduction Agency (DTRA). In her current role, she establishes and implements policy and procedures; ensures adherence with applicable laws and regulations; and monitors compliance in the areas of acquisition, contracts, logistics, engineering, and facilities. As the CAE, Ms. Swan guides annual acquisition strategies for the entire acquisition portfolio valued at over \$1 billion.

Prior to her current assignment, Ms. Swan led the Counter Improvised Threat Technologies Department in the Research and Development (RD) Directorate at DTRA where she was responsible for the anticipatory, rapid acquisition of material solutions supporting combatant commanders' response to new and emerging improvised threats. Prior to transitioning to DTRA's RD Directorate, Ms. Swan was the Director of Material Solutions

for the Joint Improvised Threat Defeat Organization (JIDO), and the Deputy Director for Mission Support at the Joint IED Defeat Organization (JIEDDO).

Ms. Swan began her career in the commercial sector as an engineer for Newport News Shipbuilding. She joined Federal service in 1989 and was an original member of the Headquarters, Naval Surface Warfare Center (NSWC), where she helped bring together eight disparate engineering organizations and laboratories into a cohesive warfare center of approximately 20,000 people. She transitioned to NSWC's Dahlgren Division, leading multiple branches there and serving on the Command Staff, then moved to the Army to be Principal Deputy Director of the Biometrics Identity Management Agency (formerly the Biometrics Task Force), where she oversaw the integration, coordination, and synchronization of biometric technologies and capabilities across Department of Defense. Ms. Swan served as Deputy Director of the Headquarters, Department of the Army Air & Missile Defense Directorate, providing leadership and collaboration across the defense stakeholder community, which includes multiple elements of the Army and the Joint Staff, the Office of the Secretary of Defense and the Missile Defense Agency, among others.

Ms. Swan holds a Bachelor of Science degree in Materials Engineering from North Carolina State University, a Master of Science in Systems Engineering from Virginia Tech, and a Master of Science in National Resource Strategy from National Defense University, as well as a certificate in Public Leadership from Harvard University and a certificate in Identity Management from Naval Postgraduate School. She is Level III certified in Engineering and in Program Management and is a graduate of the DoD Senior Acquisition Course.

Ms. Swan's awards include the Superior Civilian Service Award and various academic and leadership awards.
