

Question #	ATTENDEE	QUESTION	RESPONSIBLE DIRECTORATE / OFFICE	ANSWER	COMMENTS
1	Mark Fraser (Unverified)	What are DTRA Research and Development (RD) budget projections for the next few years?	RD	DTRA has programmed ~ \$1B annually across the FYDP. This includes ~ \$600M in directly-appropriated DTRA funds and ~ \$400M in Chemical and Biological Defense Program funds executed by DTRA's RD Directorate.	
2	Sally White (Unverified)	Will you be providing names and contact information since we cannot hear everything due to muting? Thank you.	AL-SB	The presentation slides from Industry Day were published to our website (www.DTRA.mil; click on the tab "Doing Business With Us.") The presenters' contact information is on the cover slide for each presentation.	
3	Anonymous (Unverified)	does your agency have an Avenue for emerging tech (cyber/risk management) to be demo'ed/tested?	IT	The IT Directorate will accept invitations/material review of industries emerging technology, if they see value in the technology. The appropriate path is to submit materials for review to the POC annotated on IT Directorates slides.	
4	Anonymous (Unverified)	Does DTRA not have a presence in South America?	CT / OB	CT- The CTR program does not have an authority or determination to work in South America.	
5	Mark Fraser (Unverified)	What are the DTRA Research and Development (RD) budget projections over the next few years?	RD (See Question #1)	This is a duplicate question. See Question #1)	This is a duplicate. See Question #1)
6	Andrew Hooson (Unverified)	What are some of the biggest workforce challenges you face that if fixed, would increase the efficiency of the agency	HR / OB	HR - In this virtual environment, one of the biggest challenges is the lack of enabling secure technologies w/in DoD to allow maximum user participation across federal government and partner organizations (HR Response). // OB - Consistent funding levels and lack of multi-year budgeting within the Section 333 authority has caused significant challenges both for government and contractor workforce. With more consistent funding it would allow for streamlined and better defined contracts.	
7	Arthur (Epion LLC) (Unverified)	(1) Does DTRA have a pathway to showcase new technology to support cyber/risk management solutions? (2) Who should new technology companies reach out to?	AL-SB	The Office of Small Business Program hosts technology demonstrations and capability briefs. You can submit a white paper or capability statement to DTRA_OSBP@mail.mil. Additionally, see DTRA's very broad Broad Agency Announcement (BAA) to submit ideas about your innovative technology. The submittal will be socialized with the appropriate DTRA organization.	
8	Anonymous (Unverified)	What specifically are you doing to close the gap with HUBZONE and EDWOSB awards either as small Primes or as subcontractors? Specifically holding Primes and agencies to the subcategories vs overall Small Business goals? The established targets are never met.	AL-SB	It sounds like you questions focuses mostly on subcontracting; however, DTRA has ramped up our outreach to Women-Owned Small Businesses (WOSBs) - including Economically Disadvantaged WOSBs) and HUBZone firms in order provide guidance on how to find prime contracting opportunities with DTRA. DTRA Office of Small Business Programs (OSBP) also implemented an Subcontracting Compliance Review in 2019, scrutinizing DTRA's effort to enforce post-award subcontracting compliance.	
9	Chris (Unverified)	Secretary Murray, many/most not for profit providers supporting DoD are small or mid size corporations. However, they must compete as large businesses, regardless of their actual size. Would DoD and DTRA be willing to consider not for profit set-asides, or some sort of hybrid acquisition procedures to better support not for profit competition?	AL-SB/AL-ACP	The definition of a Small Business is stated in statute and in regulation. Businesses are considered "small" if they meet either a average annual revenue standard or a number of employee standard of their industry; are organized for profit, and are U.S. companies. All other firms not meeting that definition are considered "other than small" businesses. Non-profit organizations, by definition, are organized not for profit, and, as such, must, by law and regulation, compete for actions that are not set aside for small business.	
10	Anonymous (Unverified)	CMMC seems to have been delayed somewhat (COVID 19?) . . . When does DTRA expect to release requirements specifying some degree of CMMC compliance (e.g. level 3)?	IT	DTRA will provide industry with Agency requirements as they evaluate the requirements of a given contract. The level of information technology, combined with the critical nature of the work and available contractor pool, will dictate level of compliance. As this is an emerging program, it is still being reviewed.	
11	Anonymous (Unverified)	(1) What is DoD doing to ensure CMMC is affordable for small biz? (2) Do your homework on the certificate costs by the 3rd party?	AL-SB / IT	DoD has implemented a Pilot Program called Project Spectrum to assist small businesses in acquiring their CMMC certifications. DoD Protégé firms (those currently participating in the DoD Mentor-Protégé Program (MPP) have priority to participate in the program. Depending upon its success, DoD plans to expand this program to other small businesses.	
12	Rob Hyland (Charles River Analytics) (Unverified)	Could Ms Murray please repeat the URL for small business support professionals which she mentioned on her "Tips for winning" slide?	AL-SB	business.defense.gov is the website. Additionally, Ms. Amy Murray's slides are posted to the DTRA website.	
13	Anonymous (Unverified)	Does DTRA plan to increase use of the OASIS SB vehicle?	AL-AC	DTRA considers all viable contracting alternatives when developing acquisition strategies, including existing contract vehicles such as OASIS.	
14	Anonymous (Unverified)	where can we get a contracting forecast for your agency?	AL-SB	The acquisition forecast is posted to the DTRA website. It is updated monthly on the 2nd week of the month.	
15	John (Unverified)	How do we get on the mailing list for small businesses?	AL-SB	DTRA does not have a mailing list.	
16	Anonymous (Unverified)	Can you address the emphasis on category management and its impact on small business opportunities throughout DoD	AL-SB / AL-AC	The office of Management and Budget (OMB) has mandated use of Category Management Best-in-Class vehicles; however, DTRA will continue to do thorough market research and only use these vehicles when their use is the best acquisition solution. There are many category management vehicles that provide opportunities for small businesses. The key is to make sure that you have the required experience, past performance and certifications to be competitive and win a contract under these vehicles. Many of the Category Management contracts have on ramping throughout the life of the contract vehicle where they bring on additional contractors using the identical solicitation as the original contract vehicle.	
17	Karlee (Unverified)	What are the best ways to locate opportunities for cyber within the NE?	NE	Attend our Industry Days for each upcoming contract, especially AEMSS. Several other contracts have a smaller cyber need. Best to keep checking https://beta.sam.gov	

18	Anonymous (Unverified)	Do you have information on AEMSS Industry Day?	AL-AC / NE	NE - All information on AEMSS Industry Day will be posted here: https://beta.sam.gov/opp/a037fd1cb5584c7e8b63fb70ad721964/view?keywords=%22DTRA%20AEMSS%22&sort=-relevance&index=opp&is_active=true&page=1	
19	John (Unverified)	Where are solicitations usually posted?	AL-AC	DTRA competitive solicitations are posted in Beta.SAM. DTRA has also begun utilizing the Solicitation Portal in the Procurement Integrated Enterprise Environment (PIEE).	
20	Melissa Peterson, Blue Sky Innovative Solutions (Unverified)	On an unclassified basis, would you discuss a success of which you are most proud	AL-SB / RD	The RD Directorate's requirement for Advisory and Assistance Services (A&AS) is a success story. The requirement was traditionally a full and open requirement with very restrictive solicitation provisions that required a extensive number of resumes for "key personnel" and a secured facility for use for meeting space. The requirement was analyzed and the portion that was suitable for small businesses to perform was "carved out" and set aside for small businesses. DTRA engaged extensively with industry through several Industry Days and 1:1 meetings to improve upon the solicitation and remove unde restrictions. The acquisition was competed as 2 solicitations - 1 for the Program Management Support as a Small Business Set Aside and 1 for Science and Technology (S&T) Subject Matter Reports.	
21	Anonymous (Unverified)	Can you provide the Industry Day solicitation number? It is impossible to find again without it.	AL-SB	HDTRA1-DTRA-wide-Virtual-Industry-Day. This Speical Notice is archived on beta.SAM now; if you'd like the active contracts list or the "How to do Business with DTRA" attachments to the notice, e-mail DTRA_OSBP@mail.mil.	
22	Cody Tews (Unverified)	For DTRA, are large contracts a single award, or are multiple awards at different amounts?	AL-AC	There is no designated value to determine whether a contract will be a single award or multiple award. The acquisition strategy will develop the best acquisition alternative for the Agency.	
23	Anonymous (Unverified)	DTRA IT - Can you discuss how DTRA IMAX Mission IT on FEDSIM addresses your IT strategy?	ALAC /-OI / IT	AL-AC and OI- The task order to be issued by GSA for DTRA Mission IT is a GSA contract; not a DTRA contract. /// IT - The task order to be issued by GSA for DTRA Mission IT is a GSA contract; not a DTRA contract. Currently DTRA IT Directorate shares 2 Information Technology IDIQ vehicles that address Agency needs and are listed on the Industry Day IT Slide deck. IMAX is not an IT Directorate initiative but will attempt to address unique matrixed requirements that are not primarily IT related.	OI and/or IT can provide additional information.
24	Anonymous (Unverified)	As a SB, how can we participate on FEDSIM opportunities if we are not part of that?	AL-SB / OI	Contractors who do not have prime contracts on OASIS, the contract vehicles the GSA FEDSIM will use for the 4 DTRA requirements, can reach out to the OASIS prime contractors to develop subcontracting or teaming relationships with those OASIS prime contractors.	
25	Fred (Unverified)	Is it possible to go back to the IT future needs slide for a second?	AL-SB	Yes. The slide was re-presented during the Industry Day event.	
26	Anonymous (Unverified)	Can we get these slides?	AL-SB	Yes, these Industry Day slides will be avaiable on DTRA's Office of Small Business Programs (OSBP) website in approximately 1 week. They were posted on 8/27/20.	
27	Anonymous (Unverified)	Does DTRA participate in any consortia to leverage OTAs, or are they managed internally within DTRA?	AL-SB / RD	DTRA participates in the JPEO Countering Weapons of Mass Destruction Consortium (CWMD). DTRA has also leveraged Other Transactional Authority (OTA) through the Defense Innovation Units (DIU) by posing problems for solution to DIU "customers." Additionaly, DTRA has a rather broad Broad Agency Announcement (BAA) that provides for flexible ways to obtain development solutions, including OTAs.	Other Directorates (in addition to RD) who utilize consortia may also add their comments.
28	Anonymous (Unverified)	Does DTRA historically participate in SBIR, and will they participate in the upcoming pre-release next week?	AL-SB / RD	DTRA participates in both Small Business Innovative Research (SBIR) and Small Business Technology Transfer (STTR) programs. DoD issues 3 solitications each year identified by a 2 digit Fiscal Year and either a number (for SBIR) or letter (for STTR) to indicate which solicitation cycle. DTRA only participates in the 2nd cycle (i.e. 20.1 / 20.B).	
29	Anonymous (Unverified)	Do we understand why FedSim ran a seperate Industry Day for DTRA - Is it assumed that all of the contracts at that industry day will be managed in the future by FedSim	AL-SB / OI / AL-AC	The GSA Industry Day hosted by FEDSIM are for GSA contracts, not DTRA contracts. Those requirements, although for DTRA requirements, will be solicited, evaluated, negotiated, awarded, and administered by GSA.	
30	Anonymous (Unverified)	On average, what level of facility clearance are contractors required to have to support DTRA projects?	AL-SB / AL-AC	The level of clearance required to do DTRA work will depend upon the type of work to be done and the location of the work. Most vendors will require at least a SECRET facility clearance to work in a DTRA facility, but that may not always be the case, depending upon the type of work to be done. Always refer to the solicitation requirements.	
31	Anonymous (Unverified)	OCI issues within DTRA are very challenging for small business. It is not well understood if you are not performer, why are you OCI's from various A&AS opportunities	AL-AC / GC	There may be some misunderstanding about Organizational Conflicts of Interest (OCIs). Contractors who do Advisory and Assistance Services (A&AS) get to see sensitive information and sometimes help with acquisition planning, devleoping Performance Work Statements, and other work that would give them	
32	Anonymous (Unverified)	Can you please clarify the meaning of "2nd cycle" with regard to SBIR - does that mean DTRA participate in STTR's only, or was the reference to the 2nd SBIR release for the year?	AL-SB	See Question # 28	
33	Anonymous (Unverified)	What is Lisa Swan's title?	AL-SB	Ms. Lisa Swan is the DTRA Acquisition, Contracts and Logistics (AL) Directorate Director, the Senior Procurement Executive (SPE), the and the Component Acquisition Executive (CAE)	
34	Anonymous (Unverified)	My company (a small business) is currently performing at DTRA. Would it be possible to share a list of attendees today that might be interested in learning or working at DTRA?	AL-SB	In order to do so, we will have to obtain a release from each attendee. We will request it and release list of attendees and their company names for those who have provide a release. That document will be released in approximately 4 weeks and will be psoted to the OSBP website on DTRA's website (www.DTRA.mil); go to the tab "Doing Busienss With Us")	

35	Anonymous (Unverified)	Can you please discuss how JIEDDO/JIDA/JIDO ops/intel now has been integrated - which parts from that organization fall under which departments?	OI / SI	OI - Former analytic capabilities are operationally aligned under the Operational Analysis Department in OI. Former Operational Statistics Forecasts, Sensitive Activity Advisors and Operational Advisors are operationally aligned under their Operations Department in OI. Capability Data Integrators and Virtual Modeling and Simulation are organizationally aligned under the Mission Support Department in OI. Former RDT&E has transitioned to DTRA RD. Former Enterprise IT and CATAPULT has transitioned to DTRA IT. All these capabilities have transitioned from a predominately counterterrorism mission to a Great Power Competition mission. /// SI- All of what was WMD Intel has moved from SI to OI and been consolidated within their Intel structure.	
36	Anonymous (Unverified)	How does the RD Directorate support any OI activities with tools, models, or any technology development as the mission has transitioned against near peer adversaries?	RD / OI	OI - DTRA sensitive activity advisors depend on RD material and non-material solutions to support OI-designed CONOPS for irregular warfare operations and military deception operations. /// RD - DTRA's Research and Development Directorate provides science, technology and capability development investments that maintain the U.S. military's technological superiority in countering weapons of mass destruction & asymmetric threats, mitigate the risks of technical surprise and respond to the warfighter's urgent technical requirements. These investments support customers internal to the Agency, like OI or NE, and external to the Agency, like the Services and Combatant Commands.	
37	Anonymous (Unverified)	how will TT as it merges with RD CX help OI in the future? What specific things will be supported? Counter Threat Networks? CIT? (How does the RD Directorate support any OI activities with tools, models, or any technology development as the mission has transitioned against near peer adversaries?)	RD / OI	OI - DTRA sensitive activity advisors depend on RD material and non-material solutions to support OI-designed CONOPS for irregular warfare operations and military deception operations. /// RD - RD will realign functions, personnel, and fiscal resources internally to maintain capabilities which address emergent and evolving threats, and provide offensive advantage and stronger defense.	
38	Anonymous (Unverified)	Can you please address what major contract vehicles OI uses and any specific SB opportunities OI projects for solicitation in the next 12 months?	AL-SB / OI	Most of OI's requirements are fulfilled through the IMAX contract(s); however, if there are opportunities for small businesses, you can search for them on beta.SAM. Additionally, you can search DTRA's Acquisition Forecast, posted to our website (www.DTRA.mil).	
39	Anonymous (Unverified)	Is IMAX through GSA the only contracting approach to do business with OI? (re last question)	AL-SB / OI	See Question # 39	
40	Anonymous (Unverified)	How has the Defense Wide Review changed your mission - if at all - seems like Counter Threat Networks is broad and therefore, not changed??	DAG / OI / CT	CT- DWR reduced funding for the CTR program, and accelerated close-out efforts and cancelled planned new starts in several countries - but did not change the overall mission focus. The CTR mission is to reduce WMD threats by eliminating, securing, detecting, and interdicting WMD material. This "left of boom" approach utilizes a counter threat network approach by leveraging analyses and prioritizing investments to address the highest priority WMD threats. /// OI - So far, DWR has not changed OI's mission. OI's mission has evolved to enable the understanding of and design opportunities to counter Great Power and Proxy threat networks in response to CCMD mission requirements for OI support against National Defense Strategy and Global Campaign objectives. Through DWR, OI is continuing to explore options to enhance collaboration and partnership with DIA and to share its best practices to provide support to CCMD operational request within the latest time of value.	Any other Directorates not listed can also add comments, if they have any.
41	George Barros www.agisinc.com (Unverified)	To bring best value to government, how do we contact this Directorate, Mission Support Department, for Global Situational Awareness tools that enable users from the tactical level to all echelons up and down the chain of command, to establish crosstalk and establish a Common Operating Picture	OI	We recommend that you first engage with DTRA's Office of Small Business Programs (OSBP), who can socialize services, technologies, or products that may be of interest to the appropriate DTRA Directorate, Office, or organization. You may contact OSBP by e-mailing DTRA_OSBP@mail.mil.	
42	Peter Maloney, Bloomberg Data and Analytics (Unverified)	Are your "Intelligence" analysts leveraging OPEN SOURCE data?, for FOCI, SCRM etc ?	SI / OI	SI - All intel now consolidated in OI. We recommend reaching out to Mike Cimino. See Question # 54.	
43	Anonymous (Unverified)	The Challenge with IMAX is the only small business set-aside POAS - OCI states that you can not be on ANY other DTRA contract.	AL-SB	This is more a statement than a question. No response necessary. There are plenty of opportunities on the GSA IMAX contracts without having other DTRA contracts.	
44	Anonymous (Unverified)	BP - CMATs going away under Defense wide review - what service will pick that up?	OB	Although the CMAT program designation title is going away, the Agency will still maintain the associated primary capabilities -- namely CBRN advisory and reach back. These capabilities will be located within RD, NE and OB beginning in FY22	NOTE: CMAT = Consequence Management Assessments Teams (CMATs)
45	Mark Fraser (Unverified)	When you answer my DTRA RD budget question, please specify the 2020 budget	RD	See question #1. The FY20 budget is available on the DOD Comptroller website.	
46	William King (Unverified)	Will the loss of CMAT, does DTRA have a means to backfill that capability to GCCs through other means or programs?	OB	See Question # 44	
47	Anonymous (Unverified)	AL - Does DTRA intend to leverage and partner with Army Concepts/Capabilities Development Command (CCDC) - Chem Bio Center (CBC) acquisition vehicle(s) for future acquisitions?	RD (ChemBio)	DTRA has partnered with CCDC-CBC in the past, and will continue to partner with the most appropriate organizations to achieve our strategic capability development goals in the future.	
48	Anonymous (Unverified)	*Combat Capability DevCom (CCDC)(AL - Does DTRA intend to leverage and partner with Army Concepts/Capabilities Development Command (CCDC) - Chem Bio Center (CBC) acquisition vehicle(s) for future acquisitions?)	AL-AC / RD (ChemBio)	See Question # 47	This is a duplicate question. See question # 47.
49	Mark Dennis (Unverified)	Do you post contracting opportunities in beta.SAM.gov?	AL-AC	Yes, action requiring synopsis are posted in beta.SAM. Additionally, DTRA's Acquisition Forecast is posted to our website (www.DTRA.mil)	

50	Anonymous (Unverified)	how does small business industry request an engagement meeting	AL-SB	Industry can send a request for a meeting by e-mailing the Office of Small Business Programs (OSBP) at DTRA_OSBP@mail.mil. (NOTE: There is an underscore between "DTRA" and "OSBP.")	
51	Anonymous (Unverified)	Is ERM Systems integration a priority?	DAG / AL-SB	It is difficult to answer this question without defining the acronym ERM. It could mean any number of things including Enterprise Risk Management, Environmental Resource Management, Employee Relationship Management, Enterprise Release Management (for software), Employee Resource Management, or any number of other definitions. We invite the original submitter of the question to clarify the question by e-mailing DTRA_OSBP@mail.mil.	
52	Anonymous (Unverified)	CCDC-CBC is putting a new MATOC IDIQ together now, STEPSS. Is that one that you are considering? (Total ceiling value estimated >\$800M)	AL-AC	Part of the acquisition planning process is determining whether there are existing contract vehicles that can meet our needs. If the Army's Combat Capabilities Development Command (CCDC) contract vehicle meets our needs, and we are authorized to use its capacity, we will consider it for use.	
53	Anonymous (Unverified)	Does SI plan to use the Assessment, Evaluation, Modeling and Simulation Support (AEMSS) contract to obtain performing contractor support?	SI	not at this time	
54	Clem Danish (Unverified)	Who would you speak with to provide instruction on Operational Integration of Publicly Available Information? This would include understandings of Intelligence Oversight	OI / SI	OI - Mike Cimino in the DTRA Chief of Staff Office is the subject matter expert on Intelligence /// SI - Intelligence Oversight is in the Office of the Chief of Staff (OCoS)	
55	Anonymous (Unverified)	What contracted companies provide SI with A&AS support now? Does DTRA anticipate an acquisition that will address A&AS for SI?	SI	Contract Award data is available at www.DTRA.mil	
56	Anonymous (Unverified)	What is the acquisition strategy for A&AS for DTRA AI? SB set aside? Will this be a forthcoming acquisition and on what timeline?	AL-AC	This question is unclear. Does the asker mean Artificial Intelligence for the acronym "AI"? DTRA invites the original asker of this question to clarify it by e-mailing DTRA_OSBP@mail.mil	
57	Anonymous (Unverified)	Are the SI-ST positions on-site at DTRA or will be based at the contractor site?	SI	On site	
58	Rob Hyland (Charles River Analytics) (Unverified)	Are there technology needs for the SI Directorate, or are all needs focused on staffing services?	SI	No technology needs now	
59	Anonymous (Unverified)	What contract vehicles is DTRA-SI looking at if not AEMSS?	SI / AL-AC	SI - No decision made /// AL-AC - The question is too broad to specifically address. It is unclear what specific SI requirements the asker is inquiring about. Different strategies may be developed for various SI requirements.	
60	ashish (Unverified)	how do you get clearance? and how much time does it take? can we get it without a contract?	OI (Security)	We are assuming the question refers to obtaining a facility clearance. A contractor must have a contract that requires a facility clearance in order to obtain a facility clearance or be a subcontractor to a prime contractor for a contract that requires it. It can take 18 months or longer to obtain a facility clearance. It is recommended to work as a subcontractor to obtain your initial facility clearance.	
61	Anonymous (Unverified)	Do capabilities developed for R&D transition directly to target users/organizations - or ultimately get picked up by another DTRA directorate for transition?	RD	DTRA-developed capabilities transition to a variety of organizations, including internal customers like OI or NE and external customers like Combatant Command and Service partners.	
62	Anonymous (Unverified)	In RD and the NEW CX org which takes over the former TT mission, what will the R&D focus be on counter improvised threat, and counter threat networks with the NEW focus on near peer adversaries?	RD	RD will realign functions, personnel, and fiscal resources internally to maintain capabilities which address emergent and evolving threats, and provide offensive advantage and stronger defense. RD will work collaboratively with the Army as it assumes the role of Executive Agency for the C-IED and C-UAS missions.	
63	Anonymous (Unverified)	Do capabilities developed for R&D transition directly to target users/organizations - or ultimately get picked up by another DTRA directorate for transition?	RD	See Question # 62	This is a duplicate question. See question # 62.
64	Mark Fraser (Unverified)	What is the DTRA RD budget for 2020, 2021 and beyond?	RD	See Question # 1	This is a duplicate question. See Question #1.
65	Anonymous (Unverified)	as the defense wide review impacts and more are on the way, what happens to the RD funding profile?	RD	The RD RDT&E appropriation was reduced according to guidance provided during FY 21 Defense Wide Review (DWR). This included a reduction in funding associated with the transfer of the C-IED mission to the U. S. Army as the EA. Beyond DWR mandated functional transfers, the funding profile remains relatively stable across the FYDP.	
66	Anonymous (Unverified)	how will future "TT" CIT mission change as Army takes over CUAS and CIED? Will CX perform any Army R&D?	RD (CX)	RD will realign functions, personnel, and fiscal resources internally to maintain capabilities which address emergent and evolving threats, and provide offensive advantage and stronger defense. RD will work collaboratively with the Army as it assumes the role of Executive Agency for the C-IED and C-UAS missions.	
67	Anonymous (Unverified)	We have heard the DTRA lead Chem/Bio Operational Analysis (CBOA) event is being rescheduled for Dec 2020 at Camp Shelby. How does Industry participate?	RD (ChemBio)	Industry should monitor the beta.SAM.gov website for requests for information and opportunities related to CBOA. Calls for interest are posted publicly to allow for broad industry response and potential participation in CBOA activities.	
68	Keith (Unverified)	Do you release BAAs for "Medical Protection" of the troops to counter WMD threats or leave this to BARDA or the DOD?	RD	DTRA releases BAAs for a variety of capability development areas, which can include medical countermeasure development. DTRA also partners with other organizations, such as BARDA, so industry should monitor for broad opportunities across government.	
69	Anonymous (Unverified)	does CB budget go up or down?	OB		NOTE: CB = Capacity Building

70	Anonymous (Unverified)	The Defense Wide Review significantly reduced funding for BTRP. Published information indicates that the Congress has added funding back into the program. Has a budget agreement preview and possible BTRP budget been provided to CTR?	CT	The DWR did significantly reduce funding for BTRP. Through various conference marks, Congress may restore some or possibly all of the funds reduced during DWR. However, until the FY21 final conference marks have concluded, we have no insight into what the final number will be.	
71	Anonymous (Unverified)	I presume no planned migration toward Best In Class vehicles?	AL-AC	The office of Management and Budget (OMB) has mandated use of Category Management Best-in-Class vehicles; however, DTRA will continue to do thorough market research and only use these vehicles when their use is the best acquisition solution.	
72	Anonymous (Unverified)	That question was for DTRA CT (Do you intend to use the Army's Combat Capabilities Development Command (CCDC) Chem Bio Center (CBC) pending acquisition known as Scientific, Technical, Engineering and Program Support Services ?)	CT	No decision at this time
