

Information Integration and Technology Services Directorate (IT)

IT Mission

Project the Agency's knowledge and capabilities in order to counter the threat of Weapons of Mass Destruction (WMD) and Improvised Explosive Devices

IT Departments

Cybersecurity Department: Secure and compliant IT systems (Protect, Defend and Monitor)

Knowledge Management and Plans Department: Data Science, Analytics, Business Intelligence, Strategy, Records Management

Mission IT Infrastructure and Services Department: Support Agency mission through innovative IT solutions

Information Resources Department: Agency Compliance, Reporting and Resource Management

Office IT Department: Enterprise IT support to Agency operations

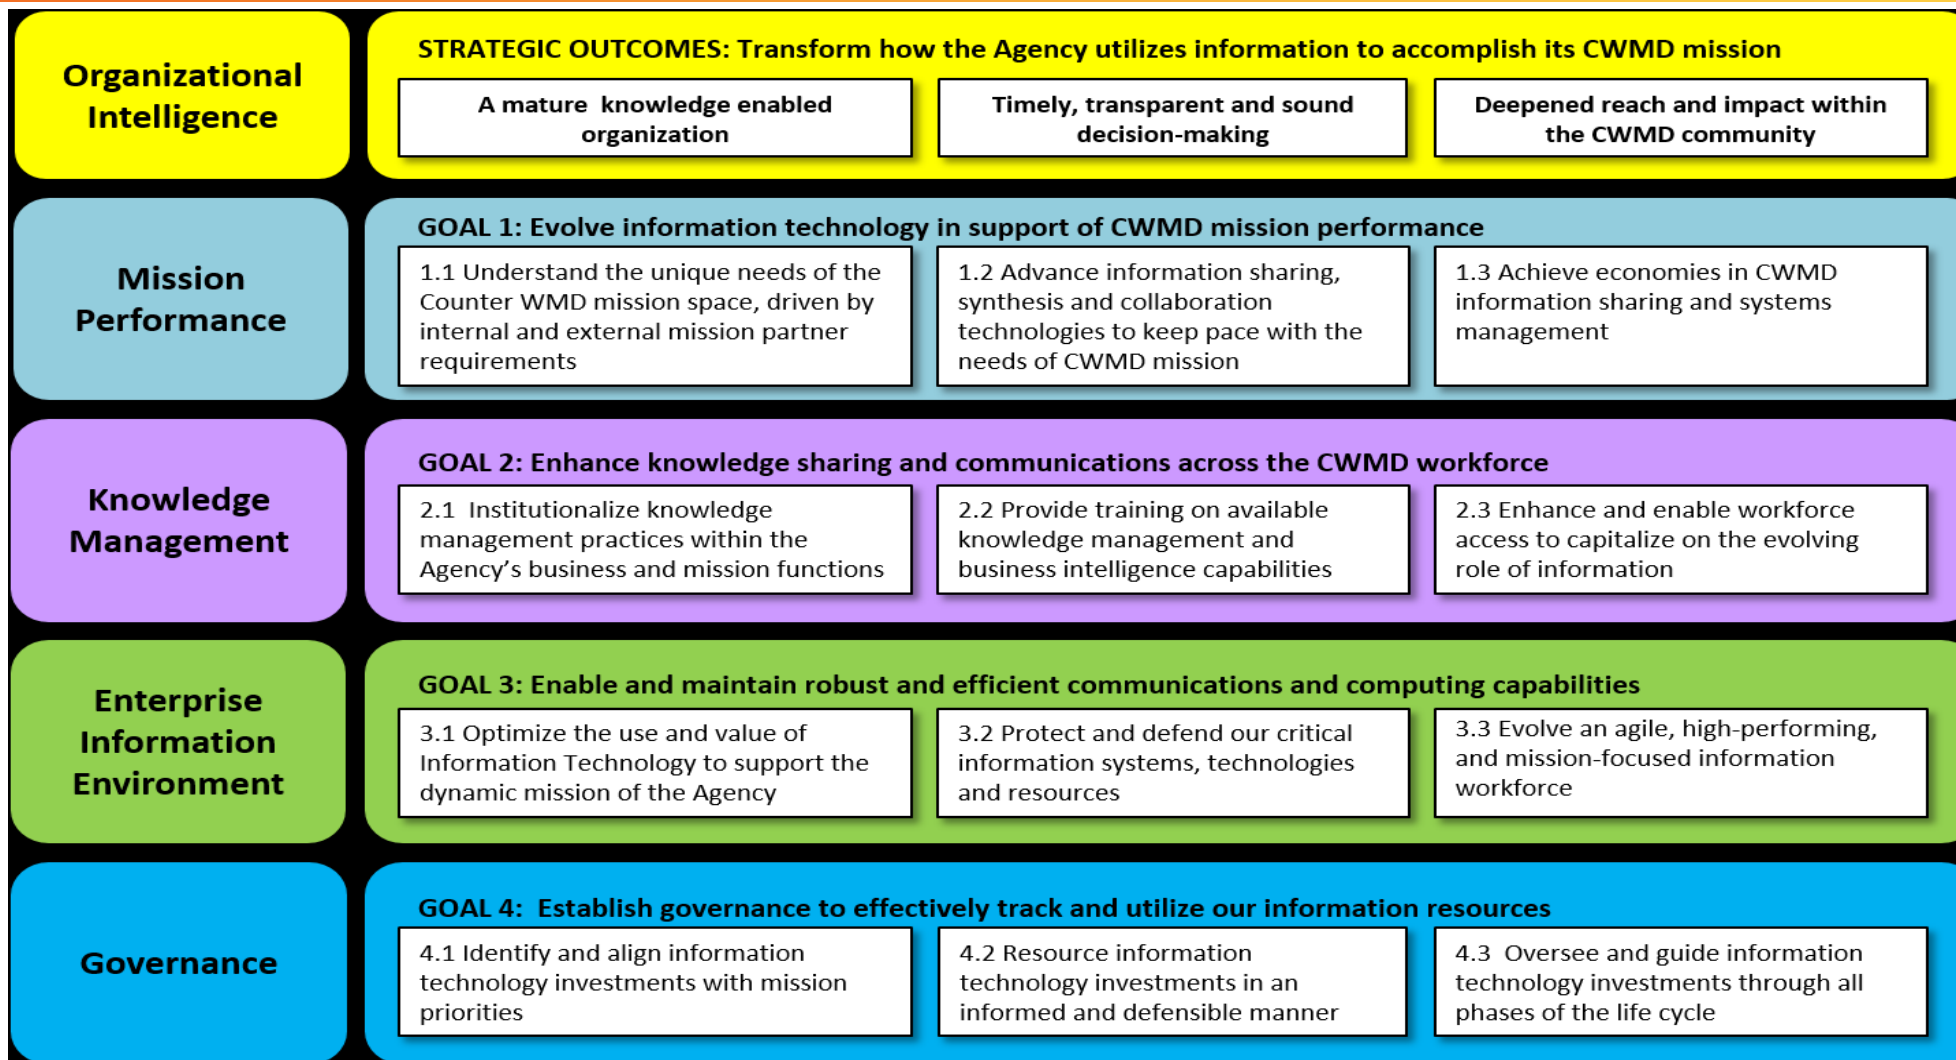

IT Objectives

Transform how the Agency receives, transmits and utilizes information to accomplish its CWMD mission

- Evolve information technology in support of CWMD mission
- Enhance knowledge sharing and communications across the CWMD domain and interagency partners
- Enable robust communications and computing capabilities
- Establish governance to effectively track and utilize our information resources

IT Program Objectives

IT Current Requirements

- **Multiple Award Indefinite Delivery Indefinite Quantity (IDIQ) for IT Service Design**
 - IT Service Design: design and develop systems, software, security, and/or cloud solutions including rigorous systems testing as necessary to meet DTRA mission requirements
- **Program Acquisition Support**
 - Conduct market research and assist in preparing acquisition documents
- **Microsoft Professional Support**
 - Microsoft professional support services to fulfill and maintain DTRA's needs and initiatives implementing software products, services and technologies throughout the enterprise
- **Business Dashboard**
 - Design, development, test and production support for DTRA Business Intelligence Dashboards

IT Future Requirements

- All Things IT fit into our requirements.
- Services-Centric that perform as Strategic Partners – not competitors
 - 2 IDIQ's are in-place for a wide range of support to the Agency
 - Single Award IDIQ to TEKSYNAP (2018)
 - Multi-Award IDIQ for Solution Development (2019)
- Consolidation/Integration of current contracts to achieve greater efficiency is under consideration
