

Strategic Integration Directorate (SI)

Strategic Integration (SI) Directorate

Three Integrated Lines of Effort

- *Plans and Exercises (PLEX)* – Organized around the 2+3 NDS threats; develop cohesive agency approach to enable CCMD objectives, counter NDS threats, and increase mission effectiveness
- *Strategic Trends and Effects (STED)* – Insights into effects DTRA may be able to generate against emerging threats; assess the collective effects of DTRA OAs within the operating environment
- *Comptroller* – Strategic resourcing of OAs to meet the demand signals of the warfighter within a dynamic fiscal and threat environment

The Strategic Integration Directorate shapes DTRA's response to the challenges and priorities set forth in the National Defense Strategy, focusing the Agency's operations, activities and investments in a manner that maximizes their cumulative effect in support of our warfighting customers.
